

## NEWS RELEASE

### POWER STATION ADDS BUSINESS DEVELOPMENT EXECUTIVE

**Orange, CA, October 7, 2008 / PR Newswire / Power Station, LLC**

Power Station LLC announces the appointment of Stuart Seiler to serve as Vice President of Business Development, to enhance venue sales and marketing, predominantly in airport and airline markets.

Mr. Seiler comes to Power Station having recently served as Director of Business Development at Pacific Telemanagement Services (PTS), where he coordinated the transfer of some 40,000 pay telephones to PTS from giant operators including AT&T, MCI and Verizon. Prior to his work at PTS, Mr. Seiler held various positions at Sprint, GTE and Verizon, where he managed external service provider arrangements and network products designed for customers away from their homes and offices. During his career, Mr. Seiler has negotiated a number of contractual arrangements, including the provision of pay telephone service to MCI for their master contract with the Commonwealth of PA. Additionally, he has overseen substantial requests for proposals including those issued by Kansas City International Airport, Minneapolis St. Paul Airport, Denver International Airport, Los Angeles World Airports, and others. Mr. Seiler has fostered many enduring relationships in airports and airline management, along with several concessionaires.

Henry Mauriss, Chief Executive Officer of Power Station, said: "Stu has the rare combination of technical knowhow and executive-caliber business development skills. His grasp of airport needs and infrastructure, together with exceptional site analytics are ideal for this role. Stu represents everything we insist on at Power Station: the highest forms of talent, reliability and leadership skills. We're excited to bring Stuart to this important role, and all of us at Power Station look forward to working with him as we expand this dynamic enterprise. We know his contributions will be many and all of them valuable".

Stuart Seiler, newly appointed Vice President for the Company had this to say: "I'm excited to have the opportunity to bring Power Station products to airports, hospitals and other venues. The Company's products are a good value for the consumer as well as the venues the Company is pursuing. Power Station is well positioned to grow and dominate their markets".

*The PowerPort is the only product of its kind. In a single location, it offers Internet access; laptop rentals; printing; secure battery charging for over 1200 models of cell phones, PDA's, Blackberries, etc, and digital content downloads. People with time to spare in an airport can rent laptop computers and work at their leisure in the gate areas, or stop and use a computer while they dine. Those in a hurry can log on, conduct essential business or check their e-mail, and be on their way. Look for us at your home airport soon.*
